CHRISTIAN SCIENCE RADIO SERIES HOW HONEST SHOULD I BE?

Part of playing any game is to learn how to settle the inevitable arguments. In a league in which nobody has a coin to toss, this is the time-honored method for getting the game started with a fair start. But there are other games to be played, in other leagues. Life for each of us brings many occasions for conflict. And they don't all yield to simple techniques like twirling a bat around one's shoulders with just a couple of fingers. Earnest Christians believe that our faith can point men to the right attitude and action in times of stress. That's why, as we face the conflicts of life, we always hope the other fellow will behave like a Christian. And he's hoping as much for us. Why not meet him in Church next Sunday? That's where right attitudes often begin.

Braddock Brothers Have Texas Area In New Business

Bob and Jack Braddock left by plane Wednesday morning for Waco, Texas, where they have set up headquarters for Southwest Encumbered Homes, Inc., as distributors for the United States Steel Homes for the entire state of Texas.

The wives, Patricia and Marilyn, and their children expect to leave within the next month. Mr. and Mrs. Felix Braddock, parents of Bob and Jack, will continue the operation of Braddock Construction Co. in the Glades with Harold Zumpf as general manager for the firm.

Braddock Construction Co. has operated in the Glades for ten years and have completed 45 homes within the past year with the US Steel homes dealership.

"We feel honored," says the Braddocks, "that our firm has been selected by US Steel Company to handle the entire state of Texas as distributors, based on our merchandising of the product in this area."

A couple of trips to Waco and two to the home office of the manufacturers at New Albany, Indiana have been made within the past three weeks to complete arrangements, and the Braddocks are advised from Waco that business is already knocking at the door.

AVIATION GROWS

The aviation industry in Florida by 1949 had grown to the extent that payrolls and spending with the state was exceeded only by tourist spending and agriculture income.

Governor Hayden Burns has announced the names of four area students who will be among more than 475 young people receiving educational grants from the money raised at inaugural balls in major Florida cities. The local students are: Betty Brown, Dorothea Brown, Chester Kearsse, and Mary Ann Smith.

The Governor explained that the money was awarded on the basis of need to worthy recipients who were at least good average students. The only requirement is that the scholarship awardees attend a Florida institution of higher learning.

The Foundation Trustees are from their parents, part-time Charles W. Campbell, William J. Hamrick, C. W. Beaufort, and, in most cases provide the necessary margin to permit attendance at a college.

More than \$140,000 will be given to scholarship receivers. The money is being distributed by region in proportion to amounts netted from replica inaugural balls in Tallahassee, Tampa, Orlando, Jacksonville, Miami and Pensacola.

Martin Sack and Frank Stockton. In a policy statement, the Trustees explained: "It is our thought to provide as much coverage as possible, this is, to assist as many as possible, and it is assumed that most applicants will be helped by comparatively small sums, for example, in amounts that will defray their tuition, when supplemented by some help from their parents, part-time work or available loan funds."

Clewiston Plans Fourth of July Oldtime "Shindig"

An old fashioned 4th of July complete with fireworks is a sure thing for Clewiston this year as the newly formed Junior Chamber of Commerce, "the Jaycees", finalized plans for the holiday week end at their weekly meeting last Tuesday night.

The 2 day, Jaycee Jamboree will begin Saturday, July 3rd at high noon with an all day Bar B Que, Clewiston style.

Other events will include boat races, in air show and sky diving exhibition, plus a country and western band. The grand finale for the Saturday events will be a spectacular fire works display. The Bar B Que and fireworks as well as all other Saturday events will take place at the wayside park on the levee.

Other features of the Jaycee Jamboree will include the drawing of 20 fine, quality door prizes at regular intervals during the Bar B Que from 12 noon until 8 p.m. A drawing will be made just prior to the fireworks to determine the winners of an RCA color TV and a fine mercury second car. All proceeds from the Jamboree will go for the Kim Scott Medical Fund.

DR. SIMMONS ASKED TO SERVE ON AADN HEALTH COMMITTEE

Jessie G. Simmons, D. N., Belle Glade, Fla. has been asked by the American Association of Doctor's Nurses to serve on its Decade of Health Committee. The purpose of the Committee will be the development of several projects which this national association and its chapters can promote to help mankind.

In asking this member to serve, Myrtle Powell, D. N., of Norfolk, Va., a member of the Professional Council of AADN, states that in its Decade of Health program, the Association will attempt to remind people about the dangers of smoking, air pollution, drinking, failure to have checkups, ways of recognizing danger signals, and others. The first phase of this program, concerning the plight of the non-smoker, is mentioned in the current READER'S DIGEST.

According to Mrs. Powell, "Next to war and peace, our country's greatest and most im-

portant problem is health. This is an area where the Doctor's Nurse, as an employee of a physician, and a dedicated lay person, can help to actually save lives. It is a known fact that literally thousands of lives could be saved by a yearly checkup."

Mrs. Powell states: "We will not attempt to take on any of the projects, except to publicize and point out the facilities available through private and public health agencies, such as the Cancer Society, Heart Fund, Tuberculosis Foundation, etc. We will urge people to acquaint themselves with the services offered by these agencies, and above all, we will urge them to take care of their health."

The Decade of Health Program will be launched at the Annual Convention of the American Association of Doctor's Nurses, to be held July 15-18th, at the Atlanta American Motor Hotel in Atlanta.

Governor Carl E. Sanders has proclaimed July 15th as "Doctors' Nurses Day" in the State of Georgia. Among the speakers for the institutes, seminars, and workshops at the Convention will be: Werner Krebser, M.D., McLean, Va.; H. W. Schey, M.D., Baltimore, Md.; J. R. Gehman, M.D., Omer, Mich.; Winston E. Burdine, M.D., Atlanta, Ga.; Carl C. Aven, M.D., Marietta, Ga.; Eleanor B. Petrie, M.D., Atlanta, Ga.; Alfredo Garcia, M.D., of Atlanta, and others. A tour of the Communicable Disease Center in Atlanta will be a part of the Convention program.

Membership in AADN is made up of office nurses and medical assistants — the Girl Friday of the practicing physician. Non-members who are employees of physicians are invited to attend the Convention and learn about AADN and its purposes.

Miss Sherry Knight, daughter of Mr. and Mrs. S. N. Knight of 1701 M. W. Right To Work and Civil Rights

The fourth in a series of articles on Section 14 (b) of the Taft-Hartley Act and The Right To Work.

The American people are convinced that the Right To Work is right. They know that the Right To Work is a worker's right, a state right and an individual right. And, as a matter of fact, many feel that no civil right is more important than the civil right of free choice — presently guaranteed in 19 states by Right To Work laws.

The demand by some political leaders to repeal Section 14(b) — the section of the Taft-Hartley Act which allows states to enact Right To Work laws — is strangely inconsistent with their avowed concern for the civil and human rights of all Americans.

Early in his State of the Union message, President Johnson declared that the nation is "dedicated to freedom from arbitrary power, not merely for all Americans, but for all." Moments later, he called for changes in the Taft-Hartley Act, including Section 14(b) — changes that would mean a return to nationwide compulsory union membership!

Another paradox is Secretary of Labor Willard Wirtz. He said, in a Detroit address in 1963 during a Michigan celebration of the 100th Anniversary of Emancipation, "The rights of large edifies of civil rights is dependent on equality of employment opportunity . . . if men are to be truly free in accord with the tenets of democracy, then they must be free to seek a livelihood without prejudice."

It is unfortunate that Secretary Wirtz seems to be speaking out for all men when in reality he appears to mean only some men. For as an outspoken opponent of the right to work he certainly is not including those who do not choose to unionize.

A really strange outlook on human rights is presented by Walter Reuther, the boss of the United Auto Workers. He said recently in Selma, "When you deny freedom to any person, you are destroying your own freedom." Perhaps we should recall Mr. Reuther of the fact that organized labor is today denying freedom to millions of individuals making up our "minority" groups. An excellent example of this is provided by three men in Evansville, Indiana, who face dismissal from their jobs because they contend that their religious beliefs (they are members of the Christadelphian faith) forbid them to join a union. Is Mr. Reuther concerned with the individual rights of these three men? Hardly!

Is there "equality of employment opportunity" for the man who seeks work but cannot obtain it because of his refusal to join an organization against his will? Is there an employment atmosphere "free to seek a livelihood without prejudice?"

Regarding the Negro drive to obtain fair treatment in the job market, countless cases have emerged where Negro and other minority group workers were denied admittance to a trade due to the exclusionary practices of many closed shop unions. Because of the compulsory union situation, these excluded minority group workers were thwarted in their pursuit of the basic American right to seek employment in one's chosen field.

Thus the civil and human rights of all American workers stand in real and/or potential danger due to the bane of compulsory unionism.

Uncle Dan Says

DEAR MISTER EDITOR:

The fellers at the country store Saturday night was putting several important items on the agenda, matters that was held in need of attention. First off, Ed Doolittle allowed as how them welfare experts said that high priced educated was show but shore doing away with the English language as our forefathers knew it. For instance, said Ed, he is all the time reading about folks that was "disadvantaged." In his time, said Ed, them folks that wasn't getting no place and didn't want to get no place was called just plain no good.

Zeke Grubb was agreed with Ed, said when he was a boy and come up with some of them fellows in school, the teacher would tell his Pa he was dumb and his Pa would take him out behind the woodshed and thrash him up a bit. But according to Zeke, they has not done away with that word in the English language. And any teacher that would call a young'un dumb would be fired overnight. Now all of them was called "underachievers," and instead of taking 'em to the woodshed somebody took 'em to a skitist.

Clem Webster said this fancy language was spreading all over the place. He reported he had saw a piece in the papers where junk dealers was wanting to be called "dis-mantling areas."

The fellers was agreed, Mister Editor, that in another 10 year it won't be no old timers no good to read the papers. We weren't able to understand nothing in 'em.

Boo Hookum was lamenting that he has about give up on the whole country, including the English language. He said as how the chief ambition of most Americans today was to lose five pounds and find a place to work. He claimed that he couldn't get no place with that kind of national philosophy. Furthermore, he claimed the farmer and factory worker was still the backbone of our country but we was trying to get by with letting the politician serve as the jawbone of the nation. The human race, said Boo, was getting mighty weak, special around the jawbone section.

Josh Clodhopper was a little more optimistic as he said that he saw in the papers where home accidents dropped 14 per cent each year. He figured people was spending a little more time there and learning their way around better.

The feller that runs the store reported he was reading where a automobile engineer was working on a car that a young could park sideways. The fellers, Mister Editor, immediate voted this engineer Man of the Year.

Yours truly,
Uncle Dan

VOTING RIGHTS DEBATE MAY BE DRAWING TO A CLOSE

A Senate debate on the controversial and punitive voting rights bill has been in process for a month, during which time a coalition of provisions. We have made some progress, including defeat of the so-called Kennedy poll tax amendment by a narrow margin.

I regret to say that it now appears that the conservative forces simply do not have the votes to block cloture or defeat the bill.

LABOR DEPARTMENT PERSISTS IN DISRUPTIVE ACTIONS AGAINST FLORIDA GROWERS
Secretary of Labor Wirtz continues to expensively penalize Florida's agricultural production by his refusal to veer from the impractical course he has taken with respect to the use of off-shore labor to supplement the inadequate supply of competent domestic workers.

As recently as this week, following an unfavorable ruling of the U. S. District Court in Orlando in a suit brought by celery growers of the Belle Glade area, our producers were advised suddenly that 500 off-shore celery cutters from that area were to be deported within 24 hours, at grower expense, by commercial airlines rather than by the much less expensive air charter plan which has been historically used.

Through emergency calls to Attorney General Katzenbach, the White House, and officials of the Immigration Service on Tuesday and Wednesday, we were able to have this order countermanded so as to permit the repatriation of these workers over this weekend by charter aircraft.

This entire problem of growers having to literally live from hand-to-mouth with respect to adequate harvesting forces is becoming increasingly intolerable. The producers of perishable fruits and vegetables have more than enough occupational hazards without the addition of bureaucratic bungling. As this letter goes press, Senator Smathers, Congressman Rogers and I are still appealing to the Attorney General and the White House for a minor extension of use of the 500 celery cutters to permit complete harvesting in the affected area, since about 1,000 acres are still unharvested there. Last week, when I was in the area, I met with Senator George Murphy (Calif.), I again took the Senate Floor to bring this critical situation to Congressional attention. I shall remain in this battle as long as may be necessary.

sary to establish a permanent and common-sense program.

A gleam of hope comes from the fact that Secretary Wirtz has just certified 2,500 Mexicans to help California farmers who are having heavy losses.

Florida growers can ill afford to suffer in future years the sizable financial losses which are accruing in this harvesting season as the result of Secretary Wirtz's sociologically-slanted policy.

NASA AUTHORIZATION ASSURES CONTINUANCE OF SOIL FUEL OPERATIONS PROGRAM

In reporting the NASA authorization bill for fiscal 1966, the Senate Space Committee, of which I am a member, provided for the continuance of the 280-inch solid fuel engine program. At our recommendation, NASA transferred \$13.8 million of its uncommitted fiscal 1965 funds to 1966 to insure completion of the Program's Phase I. We also approved the \$6.2 million authorization added by the House Space Committee for Phase II operations of the program. If such is deemed feasible after February, the project is designed to demonstrate that reliable large solid propellant boosters can be built at low cost on a regular schedule. This powerful engine will deliver three to six million pounds of thrust, and is being developed jointly by Aerojet General in Miami, and Thiokol at Brunswick, Ga.

NEW SUBCOMMITTEE POST
Recently I accepted the Chairmanship of the Senate Agriculture Subcommittee for Agricultural Production, Marketing, and Stabilization of Prices formerly held by the late Senator Johnston (S. Car.). In assuming new responsibility I relinquished Chairmanship of the Subcommittee for Agricultural Credit and Rural Electrification to Senator Talmadge (Ga.), but retained membership on that body.

RULES FOR FRESH WATER FISHERMEN

TALLAHASSEE — Relax, Fresh Water Fish Commission plan a fishing trip and go fishing, but keep in mind the following list of "things to do" issued by the Florida Game and Fish Commission.

Your Library

Tues.-Sat. 8:30-12:00, 1:00-5:00
Thurs. Night, 6:30-9:00
There is one easy chair in your library, next to the magazine rack, but it may soon have to go. We need to make room for a badly needed book stack.

The chair may go, but the magazine rack will stay, and we hope that in course of time we will be able to add to the number of periodicals with which we stock it.

Many of the magazines we display are gifts of individuals who bring in their home copies after they have finished with them. We have dependable, regular sources for several magazines this way. Others we buy by subscription.

Our magazines do circulate. Many Belle Glade residents are probably not aware of this, as circulation statistics show that only a few periodicals are checked out. Comfortable chairs in a browsing area, where magazines could be leafed through, at leisure right in the Library, would multiply their usefulness many times over.

The following are magazines to which we subscribe: LIFE, CONSUMER'S REPORT, TODAY'S HEALTH, NATIONAL GEOGRAPHIC, and CURRENT BIOGRAPHY. (This last periodical gives detailed biographical information on about 20 national and world figures every month, and is useful reference material for students doing reports.) Among those given to us are TIME, LADIES HOME JOURNAL, NEWSWEEK, SATURDAY EVENING POST, LOOK, FLORIDA CATTLEMAN, SCENE SOUTH, P. T. A. MAGAZINE, and newspapers, the CHRISTIAN SCIENCE MONITOR and the BELLE GLADE HERALD.

In addition to these the Library subscribes to several professional magazines, for the use of the Library staff, any of which would be available to interested persons.

We look forward to eventually having available for the public some of the less subscription (and more expensive) magazines, such as ATLANTIC, FORTUNE, and HARPER'S, and special interest magazines, such as HIGH FIDELITY, SCIENTIFIC AMERICAN, and NATURAL HISTORY. Anyone who would care to donate a subscription to any of these would be most appreciated.

"Uncle" Returns 316 Million To Fla.

The federal government "returned" \$316 million to Florida last year under the "grants-in-aid" programs, the Florida State Chamber of Commerce reported in its Weekly Business Review released yesterday.

"This sum was 25 per cent more than during the previous year, compared with a 17 per cent increase nationally. These so-called grants-in-aid programs are not grants at all. They are, in fact, reimbursements of tax monies already paid into the federal till by Floridians.

"Such essentials as highways, education, public health and aids to the unfortunate are covered. Of last year's total, \$41,876,000 was paid to state and local governmental agencies, a 34 per cent increase over 1963. Payments to individual Floridians and to Cuban refugees totaled \$73,959,000, about the same as during 1963.

"A breakdown of the \$316 million total by principal categories follows. Highway construction grants totaled \$93

million, up 73 per cent. Schools and education projects received \$27 million for construction, maintenance operation and lunches, up 14 per cent. Under various programs related to public health, hospital construction and research, \$25 million was paid in Florida, a 17 per cent gain. Assistance to the aged and the blind totaled \$57 million, up 11 per cent; to dependent children, \$20 million, virtually the same as in 1963.

"Aids to agriculture and conservation, including research, amounted to \$10 million; disaster payments related to hurricanes, \$8 million; unemployment compensation, \$8 million and the National Guard, \$7 million.

"There are about 130 classifications of these grants-in-aid programs and Florida participated in 108 of them. Not included in these tabulations are federal government expenditures in the state for defense contracts, drainage projects, improvements to rivers and harbors or the \$700 million federal payroll paid to civilian and military personnel annually."

Course For Prospective School Administrators

Palm Beach County teachers with M.A. degrees—or within walking distances of their M.A.s—are being invited to take a course to prepare themselves for promotion to school administrative positions. Fifteen candidates will be selected by a committee headed by Mr. Fulton, from all applicants filing before June 10.

The entire course will be under the direction of Dr. Forest Murphy, of Florida State University, with the second of its three phases being directed by Palm Beach County's Assistant Superintendent in Instruction Charlie T. Council, at the county administrative offices in West Palm Beach, it is announced by Supt. Robert W. Fulton.

When Dixie Stores Buy Fla. Vegetable

An increase of more than \$300,000 in the value of Florida fresh fruits and vegetables purchased by Winn-Dixie Stores, Inc. on the Pompano Beach market during the 1964-65 growing season was reported today.

Purchases during the season just ended totaled \$1,755,181 compared with \$1,449,884 during the 1963-64 growing season.

The produce was bought through the company's field—buying office here and found its way into shopping baskets in many of Winn-Dixie's 662 supermarkets throughout the South.

"These purchases emphasize our continuing policy of doing business in our own operating areas wherever possible," said Joe A. Adams, in charge of perishable merchandising. "They also demonstrate the important part the average Florida fruit and vegetable grower is playing in the general economy of our region."

rather will place themselves in a position to be considered seriously for promotion."

Phase I of the Administrator course will be from June 21 till July 9 and cost \$36. It will be a three week workshop at FAU.

Phase II will be directed by Palm Beach County Assistant Superintendent in Instruction Charlie T. Council, and will be a two-hour per week workshop during the fall semester, at the county school system's administrative offices at the former Palm Beach Air Base.

Phase III will provide intern training under the direction of Dr. Murphy and the supervision of selected principals, and will cost \$36. Three hours credit can be earned for the internships.

Candidates will be selected by a committee to include Mr. Fulton, Assistant Superintendent Clyde Harris and Charlie T. Council, county school Personnel Director Charlie Wilson, and a representative of the county Principal's Association.

Applications will be received by Superintendent Fulton at his 301 North Olive Avenue, West Palm Beach office.

Joint Meet June 31 Observes Flag Day

Sunday, June 31, at 2 p.m. Belle Glade, Pahokee and Clewiston lodges will hold joint Flag day services in Belle Glade Lodge room. Post Exalted Rulers will have charge of this open ritual service.

The public is invited, also bring your friends to this service honoring the Flag of the United States.

Steak suppers will be held on the 1st and 3rd Saturdays of each month until further notice. Elks are invited to bring steak and enjoy the good fellowship of these affairs.

The streets in your neighborhood will soon be bustling with happy youngsters at play. Carol Lane, women's travel director of Shell Oil Company, reminds you of your obligation to watch for these uninhibited "out of school" children.

Guardman Attends OCS At Blanding

Sgt. Chas. R. Arnold of Clewiston, a member of the Glades unit of the National Guard is attending the Florida National Guard Officer Candidate School in its annual field training at Camp Blanding, June 16th through the 20th. There will be 183 young guardmen attending this two weeks school, according to Major General Henry W. McMillan, Adjutant General.

For fifty-five of the candidates it will be old routine. They are members of the senior class, graduating on June 20th. At that time, they will receive commissions as 2nd lieutenants in the Florida Army National Guard. The junior class, reporting for the first time, has an enrollment of 128 candidates. During the ensuing year, they will undergo additional study and training at ten weekend assemblies held at the school, before returning for their final two weeks training next year.

\$5-1/3 Millions "Smoked in" Taxes Glades Gets \$32,402 For May, '65

Florida smokers indicate their disregard for the medical profession's warning about the danger of cancer from smoking, and paid into the State's Beverage Department \$5,360,243 as tax money for the month of May.

\$3,591,682 is being distributed to municipalities of the State, while the general revenue fund receives \$1,768,560.

Four municipalities in the Glades have checks for a total of \$32,402. Clewiston, \$5,735; Pahokee, \$3,663; South Bay, \$2,615; while Belle Glade gets \$17,339.

These taxes are an item of importance to the municipalities as monthly assistance in current bills, or as security for revenue bond issues for special improvements for the communities.

Florida and the Glades must have a special listing with cigarette manufacturers who are fighting the professional attack of the Medical Profession.

Would you, in your profession, take cognizance of the apparent unreciprocative attitude of the public to a warning of such implied seriousness?

The County received \$232,496 for the month of May, with West Palm Beach leading for a figure of \$72,118 and Manalapan at the bottom with \$89.

Mutual Companies Ask 28.6% Increase In BI and PDL Rates

State Insurance Commissioner Broward Williams gives notice that 45 mutual insurance companies have filed asking for an increase of approximately 28.6% increase in private passenger automobile liability insurance rates, state-wide.

The companies represented by the Mutual Insurance Rating Bureau, the filing agency, represents approximately 45 companies that write approximately 9% of the private passenger car business in the state.

The Commissioner has turned down a request for a 29% increase by another group, because, he said, they did not prove its case.

A hearing is set down for June 24th, 1965, at 10 A. M. in Tallahassee in the Cabinet Room at the Capitol.
